Dr Abduljalil al-Singace

Your Majesty,

Dr Abduljalil al-Singace has been serving a life sentence for over 11 years now as a result of his peaceful role in Bahrain's 2011 uprising. He seems to have lost all hope and has been on hunger strike since 8th July 2021, abstaining from solid food and only accepting drinks. Recently, he has even threatened to stop taking the necessary salts, which stabilize his condition to some degree.

I ask you to release Dr. Abduljalil al-Singace immediately and unconditionally because he has not committed any crime according to international standards, but merely exercised his rights to freedom of expression and peaceful assembly. In the meantime, I urge you to provide Dr Abduljalil al-Singace with all necessary medication, grant him access to adequate healthcare, and protect him from any ill-treatment.

Yours sincerely,
