## Jani Silva

Dear President Duque,

**Jani Silva** is a courageous Campesina who has dedicated her life to defending the Amazonian environment. In 2008, Jani Silva co-founded the Association for the Comprehensive and Sustainable Development of the Perla Amazónica (ADISPA).

Her work as a defender of the environment has resulted in her having many enemies, who in the last 14 months have harassed and threatened her with death. Jani Silva has therefore had to flee from Putumayo to another region. Despite the letters sent to you, as the President of Colombia calling for her protection, the Colombian authorities have not taken any action and Jani Silva continues to be at grave risk.

I urge you to set in place a comprehensive and efficient plan to guarantee her safety and that of her supporters.

Yours sincerely,

.
