June 2025

Yours excellency,

I am concerned about the sentence imposed on Đặng Đình Bách, an enviromental lawyer who is imprisoned since June 24th 2021.

He was wrongly convicted for tax evasion and sentenced to 5 years in prison. Actually Bách is in prison because of his civil commitment to environmental protection.

As the leader of the organisation LPSD (Law and Policy of Sustainable Development Research Center) he informed citizens about their social, economic and ecological rights.

I call for Đặng Đình Bách's immediate and unconditional release as a prisoner of conscience.

He just exercised peacefully his rights to freedom of thought and conscience.

With best regards
